Number of Stallions: 1  
Breeder Prefix: GGS

### **Do you like to acquire your Dream Paso Peruano?**

Gerda and Georges visit every year the most important U.S. (and sometimes Peruvian) breeders where they carefully select some 30 horses out of about a hundred. Some Pasos are imported and come to us where we continue to ride, enjoy and train them (with Natural Horsemanship Methods) and show them at different Shows. Others are directly imported for an increasing number of clients. Testimonials of the fully satisfied clients can be found on our website: [www.pasoperuano.eu](http://www.pasoperuano.eu)

Two of the many advantages of buying hoses abroad are the much larger selection possibilities and the much better average training.

We continue to support our clients after the purchase and also offer training courses with professional trainers.

#### **MLM NAPOLI**

Our stallion, Napoli, has an exceptional combination of 4 top bloodlines of Peru and the U.S.. He has an outstanding character; is the nicest horse we ever had and has an exceptional correct exterior, beauty and gait. All his foals show the same characteristics. He successfully participated in shows in the U.S. and Europe. He is one of the most successful stallions in Europe over the last 5 years. A DVD showing his family, his foals, his show performance is available on request.
